*December 2011*

*To whom it may concern:*

From September to December this year our Children took part in the Funky Kids Club during a series of ten workshops. While the experience culminated in the product which is the Funky Kids Show, our children, staff and parents were most impressed with the process which ran through the whole series of workshops at the school. From Art, Craft and Fabric based lessons to Drama in the form of speech, performance and a clever series of confidence and trust building games, Funky Kids has it all.

Denis and Olivia carefully build the team ethic in each group until everybody is ready to burst into action on opening night. Everything used in the show is prepared at school. Children and staff alike have ownership of every aspect of their performance. The professional stage and lighting on show night gives a unique (and often first) insight into the whole world of theatre and performance to the participants. Any school wishing to get maximum impact from their Arts Programme can look no further than Funky Kids Club.
