To whom it may concern,

Our school had the pleasure of having the Funky Kids workshop from January to March 2010. This was the best workshop I have ever had in the school. From day one Denis and Olivia established a wonderful rapport with every child and it was truly a privilege to be in our school every Thursday to see the workshops. The anticipation and enthusiasm which was generated by these workshops was a joy to witness. The organisation and professionalism which Denis and Olivia have established is first class. Their ability to sustain week in week out a high level of performance was most impressive. Our pupils have greatly benefitted from their participation in these workshops. Their confidence and self esteem has rocketed since their participation in the workshops. They are excellent value for money and the standard of the show they put on at the end was remarkable. It simply would not have been possible for our pupils to put on such a quality performance without the input of Denis and Olivia and all our teachers, pupils and parents are eagerly looking forward to the next one. I wholeheartedly recommend the Funky Kids club to every school. The Funky Kids club has been a very positive experience for the whole school community and I have received extremely complimentary feedback from our Parents Association for the workshops and concerts. To any principal who may be considering the Funky Kids, it is easily the best decision I ever made in my career to allow the Funky Kids workshop in to our school. Go for it, you will not regret it.

Yours sincerely,

Tom Duggan
Principal
